

Zone Heating Lamps

Victory Lighting offers the largest range of Zone Heating Lamps. Shortwave Infra Red Lamps are highly economical, environmentally clean and an effective way to heat people because only the people are heated. Heat transfer is not affected by draught or air movement.

Rubyslim

- With a lifetime constant colour
- Manufactured from doped quartz of only 10.5mm
- The lamp produces more than 20% more Infra Red Irradiance than conventional ruby jacketed and neutral density lamps.
- Because of the chemistry of the quartz no coating can evaporate or change colour throughout its life.

Ruby Jacket

The Traditional

Neutral density

For Applications where a red hue is not desirable

Gold Dichroic AntiGlare

- The thickness of each film that makes up the multi-layer coating is controlled with the latest technology
- Constant colour over its entire length, and from one batch to the next
- The occurrence of pinholes in the new coating is reduced
- Stability of the coating over lamp life has been enhanced.

Red Satin

A warm red glow without glare
