

Portable infrared heaters

Infrared technology cannot be beaten when it comes to providing a temporary solution or additional heat source. Victory offers two portable systems to help get heat to any area fast and efficiently.

HLX15P

A 1.5kW black tripod mounted heater, ideal for emergency spot heating and drying. With a 1.5kW short wave quartz lamp, heavy-duty guard and remote switch, it provides a fast, efficient temporary heat source

HL30

With each individual 1.5kW element switched independently, and a built-in tilt switch fitted for extra safety, HL30 heaters are extremely safe portable heaters for use in virtually any industrial or commercial application, as well as sheds, garages and community areas.

HL30FS

- Short wave quartz ruby element

HLC30FS

- Long wave ceramic element
- Heat, with no light

HL30P

- Short wave quartz ruby element
- Black tripod mounted

Typical applications

- Portacabins
- Sheds
- Community halls
- Store rooms
- Animal husbandry
- Photographic studios
- Frost protection
- Greenhouses
- Drying rooms
- Changing rooms
- Garages
