ESE Infrared Lamps for PET Processing

ESE Infrared Lamps for PET Processing

Victory has a comprehensive range of linear quartz infrared lamps specifically designed for industries using PET (PolyEthylene Terephthalate) in items such as food and beverage containers.

The high quality and longevity of Victory PET lamps means they are used world-wide by machine manufacturers.

Victory has been manufacturing high quality infrared lamps for over 30 years. Throughout this time, our lamps have continually evolved and improved to meet the needs of the user.

Our ESE lamp range has been developed by our experienced Technical Team to provide increased performance while reducing energy consumption by approximately 17.4%.

Along with our standard comprehensive range of lamps, we also work closely with Original Equipment Manufacturers who may require their own specification of branded lamps.

We work closely with our customers at every stage to deliver their bespoke requirements, which can be ordered in quantities as low as 30 pieces.

Integrated Reflectors

Victory PET lamps have a reflector system that focuses infrared heat forward in the direction where it is required, reducing the loss of heat to the rear and improving efficiency.

A reflective coating is applied to the surface of the lamp, usually covering 180° of the quartz tube. Infrared heat is emitted forward through the quartz tubing, or is reflected off the back of the tube to then pass out from the front.

Best Performer

Victory infrared PET lamps provide more energy output per watt than their competitors so will save on energy cost.

Technical Data

Infrared Lamps for PET Processing

Trusted by Manufacturers

- High efficiency: reducing running cost
- Life 5000+ hours = reduced replacement cost
- Most energy-efficient reflector coating
- Compatible with all machine models
- Clear, ceramic or gold coated
- Clear lamps compatible with external reflectors
- 1000W - 3000W

Applications

- PET Bottle Blowing
- Welding
- Composite Bonding
- Catering
- Heat Shrinking
- Soldering
- Adhesive Curing

Range

Shown below is a small sample of the lamps we are to provide. If you require alternative lamps which are not listed, please contact our sales team who will be able to provide additional assistance.
