VLMST14 14kW Timer

VLMST14 14kW Timer

VLMST14 14 kW infrared timer is designed for a wide range of indoor industrial heat-output applications, offering easy installation and dependable IP20-rated protection. Housed in a durable grey metal casing, the multifunction unit features a mains rotary switch, an electronic timer with multiple time-setting options, a mains input, and an activation button for quick, repeatable operation - providing a reliable and efficient control solution for infrared heating systems.

The VLMST14 multifunction timer unit is housed in a durable grey metal casing and features a mains rotary switch, an electronic timer with adjustable settings ranging from 0.05 seconds to 300 hours, three outputs, a mains input, and an activation button for easy repeat operations once your preferred settings have been configured.

Controlled, efficient heating

- For use in indoor applications
- Powder coated cast aluminium casing
- IP20 rated
- Simple activation button for repeat operations
- Multi function timer
- 3-Phase with max. current rating of 36A
- Easy installation
- Provides opportunity for energy saving

Applications

- Industrial process operations
- Warehouse heating
- Factory heating

VLMST14

Power from mains

Power to heaters

Suitable for any electrical device with a load up to 14kW

Technical Data

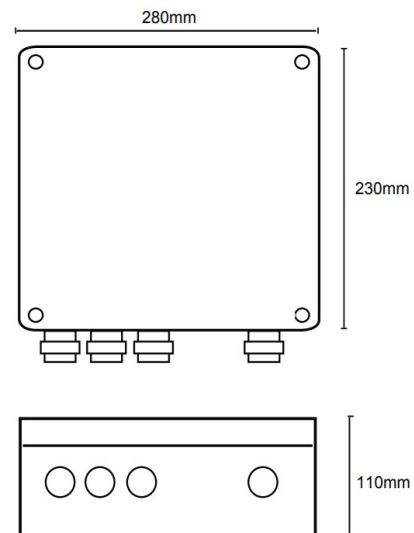

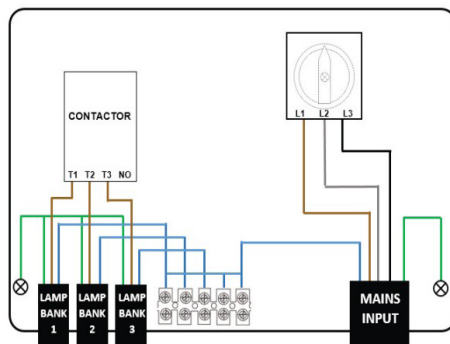

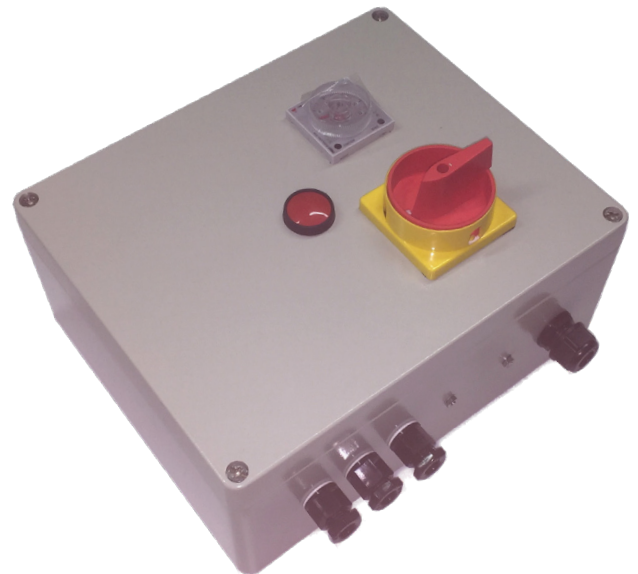

VLMST14 14kW Timer

Technical Specifications

Voltage	380-415V 3-Phase
Maximum wattage	1400W
IP Rating	IP20
