HLQ Pro Quartz Infrared Indoor Heaters

HLQ Pro heaters provide short wave high-energy instant infrared heat in a wide variety of indoor situations as well as locations such as under waterproof canopies and roofs. With models from 1.5kW to 18kW they offer the instant answer to many zone or localised heating solutions.

The units can be wall mounted or ceiling suspended and are available in single and three phase versions. They are manufactured from aluminum, finished in a black powder coat finish. Guards are included as standard with all models. They are fitted with high efficiency gold short wave infrared lamps. A low glare gold lamp option is available on request.
