

Your Partner in IR and UV Technology

Fast Bake Oven

Infrared Fast Bake Oven

The infrared drying system from Victory has been designed to meet the needs of busy manufacturers that need to quickly dry painted or coated wood and metal. This system makes short work of drying finishes providing instant heat and reducing drying time from hours to minutes.

Victory has a long history of developing infrared products for a variety of industries including automotive and plastics. This system draws on this experience to offer a much-needed solution for fast, efficient drying of finishes on wood and metal products such as doors, panels and window frames with minimal risk of contamination by dust.

Controllable Heat

- Fast drying time
- Instant heat - no warm up time
- Mobile racking easily moved in and out of the oven

Typical Manufacturing Applications

- Manufacturers of kitchen cupboards
- Door manufacturers
- Window frame manufacturers
- Painted component manufacturers

Technical Data

Infrared Fast Bake Oven

Reduce drying time from hours to minutes

Waiting for paint, varnishes and other finishes to dry slows down the manufacturing process, especially if products that need to be sprayed must wait for other items to dry first.

The Victory Fast Bake Oven means that the drying cabinet can be located away from the spraying or painting area. The mobile racking can be loaded with the product and simply wheeled away into the drying cabinet.

The system can be customised to suit bespoke requirements.

| Code | Width (mm) | Depth (mm) | Height (mm) | Watts (W) |
|------|------------|------------|-------------|-----------|
| FBO1 | 1650 | 1100 | 2000 | 4 x 1500 |
| FBO2 | 2200 | 1100 | 2000 | 4 x 1500 |

Voltage: 220-240V ~ 50-60Hz

Supplied in a flat pack format with easy-to-follow assembly instructions, each Fast Bake Oven is supplied with 4 x 1500W heater cassettes - each moutable in three standard height positions for your own unique application.

The cassettes are fully dimmable, allowingj you the flexibility to control your heat requirements for each individual job.

The Fast Bake Oven is not supplied with any controllers as standard due to the many variable customer needs. However, optional controllers are available.
