

Your Partner in IR and UV Technology

To Unlock Your Full Potential of Wood Drying & Curing

Why Work With Us?

With over 30 years' experience in the industry, we are committed to maximising Infrared & UV technology to the benefit of our customers.

We are...

DEDICATED to finding the right solution

NIMBLE AND FLEXIBLE

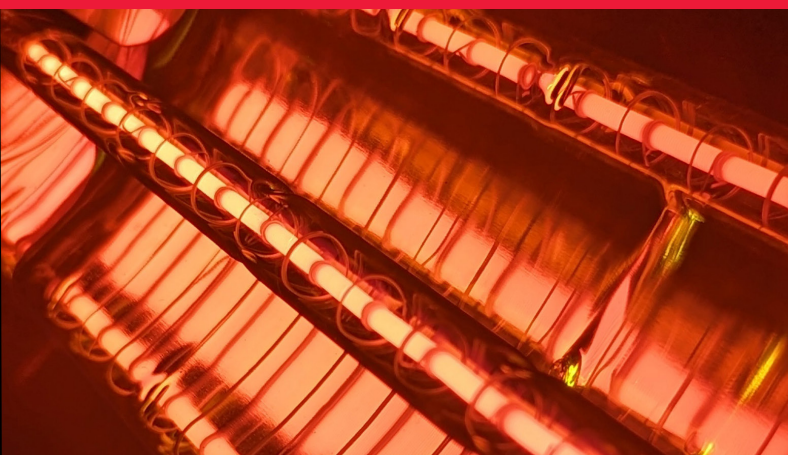

PRICE COMPETITIVE so you can experience the benefits of our solution

We already operate in a variety of industries and have used our knowledge and expertise to manufacture not only IR & UV lamps, but full solution technology offerings.

Discover how our innovative approach can **revolutionise** your manufacturing processes, **enhance** efficiency and **elevate** the quality of your products

Benefits Of IR & UV Technology In Wood Processing

INFRARED HEATING & DRYING

Infrared Technology Provides:

- * Rapid & Uniform Drying
- * Energy Efficiency
- * Versatile Applications

ULTRAVIOLET CURING

UV Technology Provides:

- * Instant Curing
- * Enhanced Product Quality
- * LED Option for Energy

We Have A Solution For You

Here at Victory, we have refined our range of Infrared & UV lamps to ensure maximum output, manufacturing efficiencies and high performance.

Our lamps deliver on...

Performance

With our R&D team have tested many wavelengths to find the optimal drying time at a range of temperatures and power output.

Quality

Using the best components and technical expertise, we have a **MINIMUM RUN TIME OF 5,000 HOURS FOR IR AND 1,000 FOR UV**

Competitive Pricing & Short Lead Times

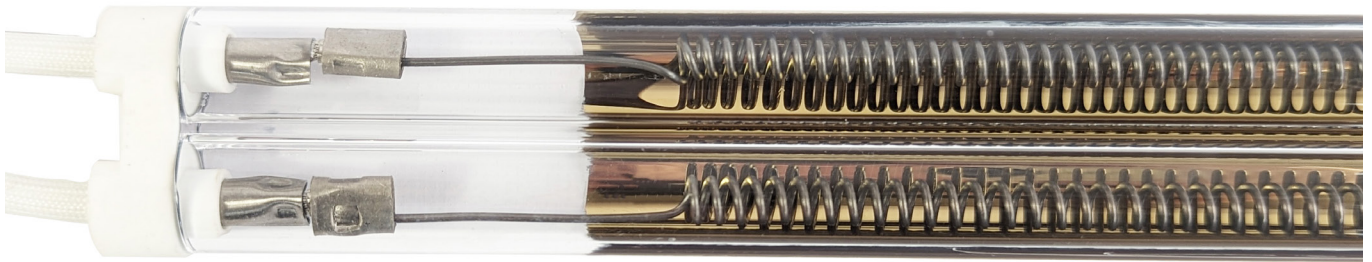

We are able to offer a strong price value to you with short lead times.

Flexibility

If our lamps don't fit within your existing system, we can manufacture to your exact production needs

Gold Reflector Coated Lamps

- Made with pure gold
- Medium Wave

Medium Pressure UV Lamps

- Range of medium pressure UV lamps
- Various lengths and powers

Out Of The Box Solution

We also manufacture a ready made drying system that contains:

4 X 1500W HEATERS

FLAT PACKED AND EASY TO ASSEMBLE

MOBILE RACKING

ADJUSTABLE HEIGHT FOR YOUR OWN APPLICATION

OUR INFRARED HEAT OVEN READY MADE
