IR

HLWC infrared heaters

The HLWC Infrared heating range provides a comfortable, safe and efficient heat source for indoor applications. With a choice of two colours and a range of wattages, there is a heater to suit every situation.

Long wave ceramic elements project optimum heat without emitting any light, making them ideal for areas where no light is required.

HLWC heaters combine robust construction with excellent design, making them ideal for both commercial and domestic use.

Efficient and long lasting

- No glare
- 1000, 1500 and 2000W
- Element life at least 10,000 hours
- Long wave IR from ceramic elements — perfect for areas where no light is required
- Silent
